

SARA SANTOS

aBOUT mE

Hi, I'm Sara (Sintra, 2001), and my name is so common that the name available on instagram was sarasantos9492. Anyways, I'm currently studying Graphic Design at ETIC, in Lisbon. With a multidisciplinary approach to every idea I develop, my main goal is to highlight what is unique about each project. I have a special interest in artistic and cultural projects where I am able to explore different visual languages. Among many things, I love photography and analog methods. I am curious from birth and sometimes I struggle with my own chronic perfectionism.
